ATTACHMENT TO CERTIFICATE OF SEWER AVAILABILITY

Dated: 16 February 2010

For Applicant: D Mark Wells

- ☒ Sewer service is available contingent upon the owner meeting all District requirements under our Rules and Regulations, Res. 05-06 as amended, and any other District policies pertinent to the particular project. We have reviewed the applicant's request and noted some conditions below. A more comprehensive review during Ronald Wastewater application review process may reveal other conditions to be met.
- ☒ Connections are subject to Ronald Wastewater District General Facilities Charge and/or Local Facilities Charge as outlined in Res. 05-04.
- ☒ All new connections, additional connections, or revised connections are subject to Metro Capacity Charge. Questions: contact Metro Community Relations at 684-1138.
- ☒ Approved/Recorded short plat or lot line adjustment submitted to District with side sewer permit application.
- ☐ Addition encroaches on existing side sewer. Check with Local Plumbing Agency regarding current plumbing regulations.
- ☒ This project will require a developer (mainline) extension. Developer to complete application and submit fees.
- ☐ May require saddle on main.
- ☒ May require right of way permits.
- ☐ TV inspection of the 6" lateral from the property to the sewer main by a District approved CCTV Service may be required.
- ☒ Installation of a grease trap/interceptor will be required for all commercial establishments generating Fat, Oil, or Grease (FOG) as outlined in Res. 05-06.
- ☒ Cap off of existing sewer required prior to demolition of any structure. Permit and inspection is required. NOTE: Unit will remain in billing until cap off is completed per District specifications.
- ☒ Easement will be required on District form and must be returned to District for recording along with appropriate fee. Easement must be submitted prior to issuance of any permits.
